

AHAMED THIJANI PP

MACHINE LEARNING ENGINEER

Mangalore • 9895797591
ahammedthijanipp@gmail.com • [Linkedln](#)

OBJECTIVE

To secure an entry-level position as a Data Scientist/Machine Learning Engineer to apply academic knowledge in a dynamic work environment, contribute to innovative projects, and gain practical experience while building a strong professional network.

EXPERIENCE

Internshala • Student Intern (Machine Learning) (12/2023)

Gained practical experience in machine learning concepts through a rigorous internship program. Worked with datasets like House Price Prediction and churn Prediction. Developed proficiency in Python, data preprocessing, model building, and evaluation. Successfully implemented different models like Random Forest, Logistic Regression, and various techniques. Enhanced problem-solving and critical thinking abilities.

EDUCATION

Yenepoya University, Mangalore • Bachelor of Computer Applications **2022-2025**

Major: Machine Learning and Artificial Intelligence | Minor: Robotics

PJHSS, Kerala • Higher Secondary School **2020-2022**

Subject: Mathematics, Physics, Chemistry, Biology | Percentage: 97%

PJHS, Kerala • High School **2019-2020**

Percentage: 95%

CERTIFICATION

- Microsoft Certified: Azure AI Fundamentals by Microsoft
- AI/ML for Geodata Analysis by IIRS, ISRO
- IBM AI Engineering Professional Certificate by IBM
- IBM Machine Learning Professional Certificate by IBM
- IBM Data Science Professional Certificate by IBM
- Mathematics for Machine Learning and Data Science by Deeplearning.ai

PROJECTS

- **Titanic Passenger Survival Prediction with Flask**

This project demonstrates the development of a web application using Flask, a popular Python microframework, that allows users to predict the survival probability of hypothetical Titanic passengers based on user-provided attributes.

- **Iris Flower Prediction App with Streamlit**

This project aims to develop a user-friendly web application using Streamlit to predict the species of an Iris flower based on its measurements.

- **Streamlit-Based Calculator**

This project aims to develop a user-friendly calculator application using the Streamlit framework. The calculator will provide basic arithmetic functionalities including addition, subtraction, multiplication, and division.

SKILLS

- | | |
|--------------------|--------------------------------|
| • Python | • Linear Algebra |
| • Machine Learning | • Deep Learning |
| • Data Analytics | • Data Structure and Algorithm |
| • Problem-Solving | • Data Science |
| • Web Development | • Django Framework |

Languages

- | | |
|-------------|--------------|
| • English | • Tamil |
| • Hindi | • Arabic |
| • Malayalam | • Indonesian |
